Jefferson City, MO 65102

Dear Ms. Houchins:

I am writing in support of the proposed 98 bed Assisted Living facility project to be located near the Shoal Creek development in Kansas City North which is within the 1st District.

The proposed project is essential for the continued development of the Northland region, in particular the Shoal Creek Valley portion of my district. It also offers an invaluable service for the seniors and will include 32 beds that will be dedicated to memory care residents.

I encourage the Missouri Health Facilities Review Committee to grant a Certificate of Need to the Oxford Shoal Creek Assisted Living Project.

Feel free to contact my office regarding any questions at 816-513-6503 or e-mail me at scott.wagner@kcmo.org should you have any questions.

Sincerely,
